

## Quotes

'Gatwick Connects', has recently included TRACE ME as part of its product offering to customers. How do you see TRACE ME as benefitting your customers?

*“GatwickConnects is an innovative solution to assist a problem faced by many passengers. Therefore we are keen to support other innovative technologies that seek to solve problems faced by passengers. TRACE ME understands the passenger’s needs, and as they have integrated into the SITA worldwide baggage system, this is a great step to providing peace of mind for passengers travelling not just through London but all over the world too”*

**Chris Baldwin** Commercial Product Lead, Gatwick Airport - January 2016
